MAXIMIZE LOGGING PRODUCTION

The Hawkeye Carriage is a wirelessly controlled hydraulic grapple carriage with multiple cameras providing superior perspective of the work area.

FEATURES

- 68" grapple opening
- Auto clamp on grapple close for better log retention
- 3 Cylinder water-cooled Tier4 diesel engine
- Upgraded hydraulic system for faster open/close times
- 360-degree grapple rotation
- Three cameras, forward-facing, rear-facing, and grapple views
- Integrated with Harvestline display, only one screen in the cab
- Hawkeye and Harvestline are supported by the same technician

Peterson Cat is your source for sales, support, and service for Tractionline, Harvestline, and Hawkeye forestry products in Northern California, Oregon, and Southwest Washington.
