317 GC HYDRAULIC EXCAVATOR

Engine Power (ISO 14396:2002) Operating Weight 90 kW (121 hp) 17 300 kg (38,100 lb)

Engine meets U.S. EPA Tier 4 Final and EU Stage V emission standards.

THE NEW CAT® 317 GC JOB-MATCHED PERFORMANCE

The Cat[®] 317 GC Excavator offers jobmatched performance and world-class versatility. A large working envelope and expanded work tool offering help you complete your work quickly and efficiently. Combined with fuelsaving features, longer maintenance intervals, and simplified maintenance points, the 317 GC provides the reliability you expect at the low costper-hour you need.

NEXT GENERATION EXCAVATORS

The new line of Cat Excavators offers more choices than ever for your business.

- + MORE MODEL OPTIONS
- + MORE FUEL SAVINGS
- + MORE WAYS TO BOOST PERFORMANCE

Ready to help you make your business stronger, Cat Next Generation Excavators give you new ways to get the most work done at a lower cost.

UP TO 10% LOWER FUEL CONSUMPTION'

Use up to 10 percent less fuel to keep you moving and productive on the jobsite.

UP TO 20% LOWER MAINTENANCE COSTS¹

With extended and more synchronized maintenance intervals, you get more done at a lower cost.

WORLD-CLASS VERSATILITY

The 317 GC's expanded work tool offering helps you tackle your jobsite's various applications with ease.

¹ Compared to the 316F

UP TO 20% LESS MAINTENANCE COSTS

LESS MAINTENANCE, MORE PROFITABILITY

NOTE: COMPARISON IS BASED ON THE PREVIOUS MODEL.

CAT LINK TECHNOLOGY TAKES THE GUESSWORK OUT OF MANAGING YOUR EQUIPMENT

Cat Link telematics technology helps take the complexity out of managing your jobsites by gathering data generated by your equipment, materials, and people and serving it up to you in customizable formats.

△ PRODUCT LINK[™]

Product Link collects data automatically and accurately from your assets – any type and any brand. Information such as location, hours, fuel usage, productivity, idle time, maintenance alerts, diagnostic codes, and machine health can be viewed online through web and mobile applications.

VISIONLINK®

Access information anytime, anywhere with VisionLink. Use it to make informed decisions that boost productivity, lower costs, simplify maintenance, and improve safety and security on your jobsite. With different subscription level options, your Cat dealer can help you configure exactly what you need to connect your fleet and manage your business without paying for extras you don't want. Subscriptions are available with cellular or satellite reporting (or both).

DO MORE. PAY LESS.

With extended and more synchronized maintenance intervals, you get more done at a lower cost. Consolidated filter locations make servicing your machine faster and easier.

INFORMATION AT YOUR FINGERTIPS

View operating information such as fuel and oil levels as well as critical service alerts on the in-cab touchscreen monitor. Your machine's filter life and maintenance intervals are also trackable on the in-cab monitor.

NEW LONGER LASTING FILTERS

The new hydraulic oil filter provides improved filtration performance, anti-drain valves to keep oil clean when the filter is replaced, and longer life with a 3,000-hour replacement interval – 50 percent longer than previous filter designs.

NEW CAB DESIGN MAKES HARD WORK EASY

Comfort and movement efficiency help keep operators productive and alert all shift long. Ergonomic control layout reduces twists and turns in the seat. The standard seat is wide and adjustable for operators of virtually any size.

ISO-CERTIFIED ROPS CAB KEEPS YOU SAFE

The ISO-certified ROPS cab is sound suppressed and sealed. The large windows and lower front, right, and rear profile of the machine give outstanding visibility to the work area without the strain of constantly leaning forward.

ALL-AROUND VISIBILITY

Enlarged windows and improved machine layout increase visibility from the seat of the cab. Standard rearview and rightside-view cameras always keep operators aware of their surroundings. Powerful, long-lasting LED lights consume minimal power, keeping you safe while working in the dark.

EASY ACCESS, CONNECTIVITY, AND STORAGE

Convenience features include Bluetooth[®] integrated radio, USB ports for charging and phone connectivity, 12V DC outlets and AUX port, storage in rear, overhead, and console compartments, and cup and bottle holders.

NEW SMART MODE

The new Smart mode automatically adjusts engine and hydraulic power for the highest fuel efficiency – less power for tasks such as swinging and more power for digging.

🕖 KEYLESS PUSH TO START

The 317 GC uses a keyless push-button engine start. This adds security for the machine by using Operator ID codes to limit and track machine access. Codes can be entered manually, via an optional Bluetooth key fob, or smartphone app.

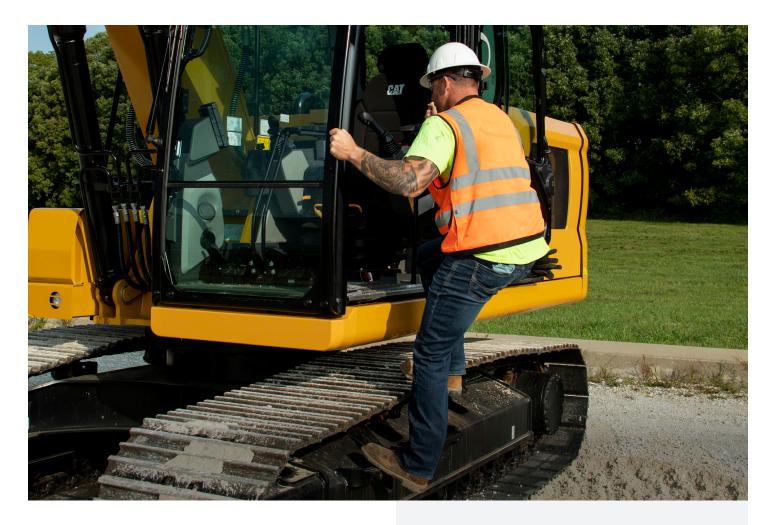

CUSTOMIZABLE JOYSTICKS

HAT

Joystick function can be customized through the monitor. Joystick pattern as well as response can be set to match operator preference. All preferences are saved with the Operator ID and restored at login. For additional modifications to the function speed (Gain) setting and balance refinement, contact your local Cat dealer

TOUCHSCREEN MONITOR

Most machine settings can be controlled through the high resolution 203 mm (8-inch) touchscreen monitor. It offers 42 languages and is easy to read from the seat.

SAFETY FEATURES

LOOK OUT FOR YOUR PEOPLE AND YOUR EQUIPMENT

KEEP YOUR EXCAVATOR SECURE

Use your PIN code on the monitor, the optional Bluetooth key fob, or your smartphone to enable the push-button starting feature.

100% GROUND-LEVEL DAILY MAINTENANCE

All daily maintenance checks can be performed from ground level, making maintenance faster, easier, and safer. Checkpoints include the engine oil dipstick, fuel water separator, fuel tank water and sediment drains, and cooling system coolant level check.

UPPER PLATFORM ACCESS

New service platform design provides easy, safe, and quick access to upper service platform; the service platform steps use anti-skid punch plate to help prevent slipping.

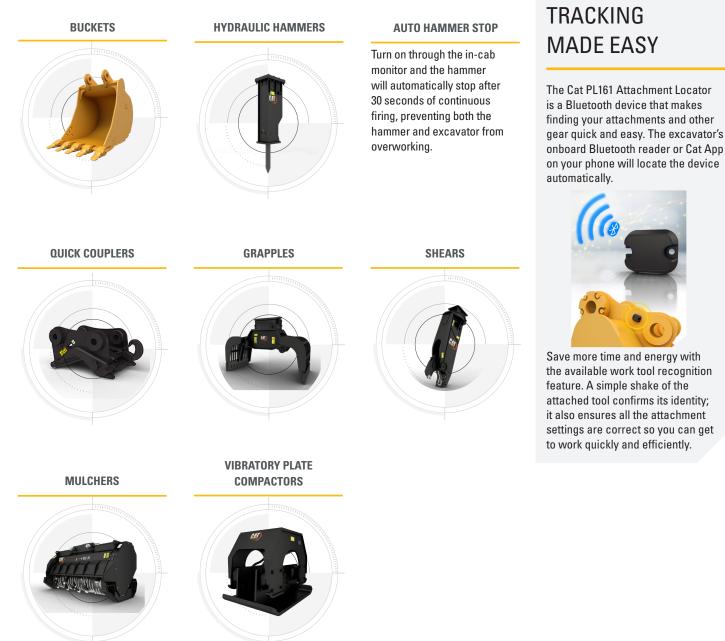

STAY SAFE EVERY DAY
